octopus

COMPANY PROFILE

AI in your operations.

Discover. Design. Lead it live.

Riyadh · Al Khobar hello@pioctopus.ai pioctopus.ai

WHO WE ARE

A boutique, AI-native consultancy for digital and AI transformation.

OUR VISION

AI at work in the daily operations of organisations across Saudi Arabia and the GCC.

OUR MISSION

We find where AI pays off, design it with your teams and lead it live, on the systems you already run.

octopus

The mandate is clear. The path isn't.

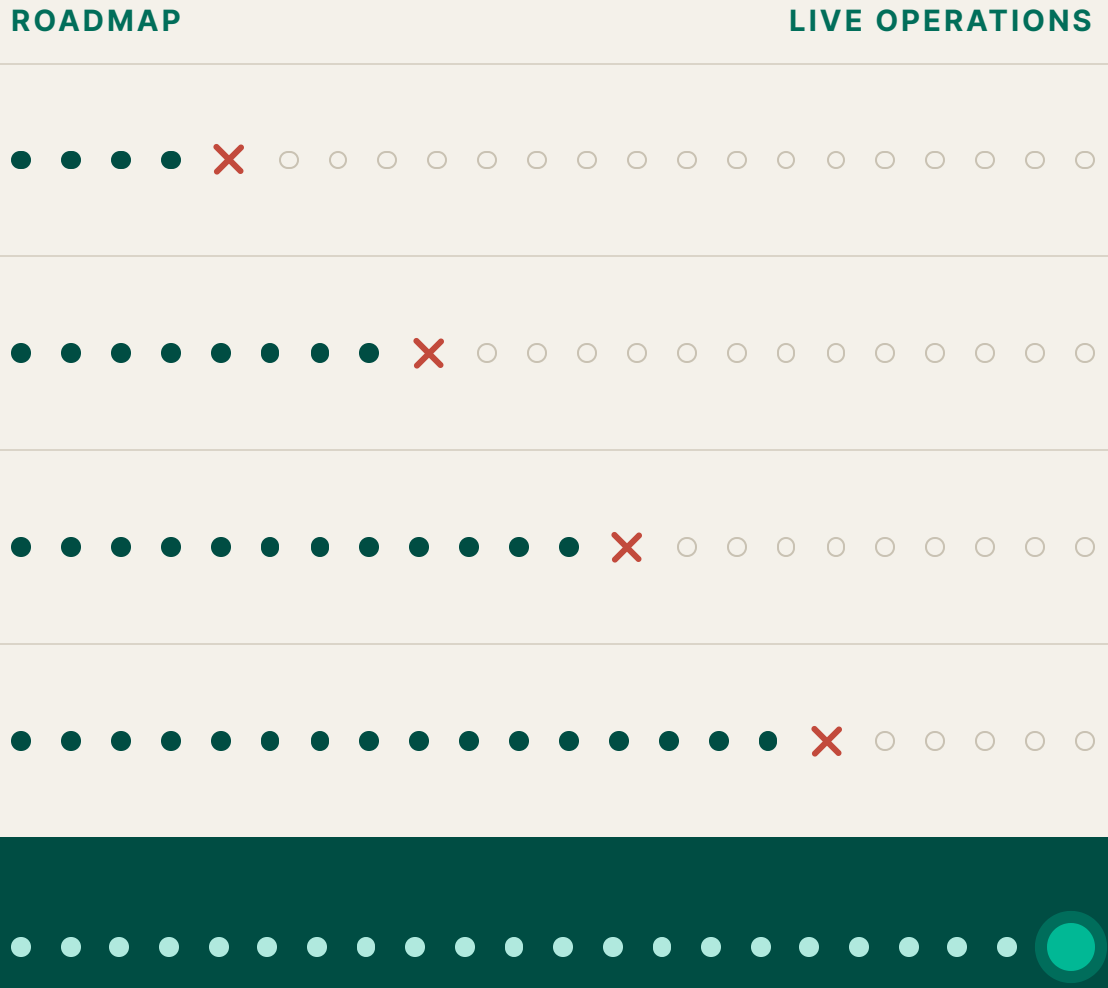

84% of GCC organisations use AI in at least one function.

Only **11%** get 5% or more of their earnings from it.

Source: McKinsey, The state of AI in GCC countries, Nov 2025

octopus

The usual paths don't reach operations.

octopus

Four steps. One team accountable.

4 weeks · fixed scope

01

Discover

We map how work runs.

02

Strategy & governance

Rules before the build.

03

Design & lead the build

We lead it into production.

04

Adopt & scale

We stay until people use it.

WHAT WE DO

octopus

Six practices.

One partner from roadmap to live.

01

AI strategy & value

02

Governance & regulatory readiness

03

Data, platforms & sourcing

04

Operations re-engineering

05

Digital core & ecosystems

06

Operating model & adoption

INSIDE YOUR ORGANISATION

AI agents, at work inside your systems.

1

Each agent answers to a named person.

1. Map the work and systems
2. Decide what each agent owns
3. Build and connect
4. Hand over with permissions set
5. Your team runs them

WAYS IN

Three ways in. Each with a fixed scope.

Start here

4

weeks

The 4-week diagnostic

Ranked opportunities and a roadmap

3 to 4

weeks

AI governance and regulatory readiness review

Where each AI system stands

3 to 5

weeks

AI sourcing and platform decision

Build, buy or partner

octopus

Four stages. A gate after each.

ENGAGEMENT MODELS

Transformation programme

Operate and transfer

octopus

WHO WE SERVE

Four kinds of organisation.

01

Private companies

The tools are in. The work hasn't changed.

02

State-owned companies

A clear mandate. A board that wants proof.

03

Government entities

National-scale services. Firmer rules.

04

Semi-government entities

A public mandate. A company's pace.

octopus

Digital transformation and complete technology ecosystems, for these organisations.

TRUST AND DATA

Your data, your rules.

Data stays in the Kingdom by default.

Any exception needs your written approval.

On-premises or sovereign cloud

Confidentiality in writing

AI tools agreed first

Model-neutral

Aligned with SDAIA's AI Ethics Principles, PDPL and NCA controls.

octopus

Let's find where AI pays off in your operations.

We look at your priorities and tell you plainly where we would start.
